              Fusion NMEA2000 NRX Series Remote Control

Model: MS-RA70NSX

Stereo Version: 1.01.58
NRX Remote Version: **1.02.75**

Feature Improvements:
Added ANT Multi-Zone.
Updated NMEA product code.

Bug Fixes:
General Bug fixes and improvements.

Installation Instructions:

To check the installed version of software go to About Screen in the Settings Menu.

Install Process for USB update

1. From the product page select product support and Download the required zip file to your PC/Laptop.
2. Extract the Update folder to a USB flash drive (format fat32)
3. Connect the USB flash drive to the products USB Port.
4. Select the Update feature in the Settings Menu on the product or via the BT app/F-Link supported MFD or NRX Series remote.
5. The Update takes about 1 minute and the "Success" prompt will be displayed once the update is complete.

Important Notes

1. The accessory software updates (MS-NRX Series) are imbedded in the MS-RA70NSX update.
2. Once the update has been installed in the MS-RA70NSX, the connected accessory **MUST** be updated from the Update menu screen in the Settings Menu to be compatible with your Fusion Entertainment System.
   (Please follow the installation instructions with the update download on the product page.)
